

Brandeis Mandel Center for the Humanities

Project

Interior and Exterior Sign Program
Mandel Center for the Humanities
Brandeis University
Waltham MA

Architect

Kallmann McKinnell & Wood
Boston MA

Project Profile

Whitney Veigas was selected by the university to design, fabricate, and install signs for this stunning new building, housing classrooms and faculty offices. Extensive amounts of glass and two outdoor terraces line the long, south facing façade. The brick north facing façade forms the fourth side of a quad, with three 1960's era buildings.

Our Solution

Whitney Veigas utilized a standard interior plaque system that is used throughout the campus, but gave it an upscale appearance by using a dark grey metallic paint and a frosted glass extended back plate. Additional graphic elements within the building included satin aluminum individual letters. The satin stainless exterior building identification letters involved a custom mounting to accommodate the sloping shingled slate façade.
