

Charlton College of Business

Project

Interior and Exterior Sign Program
Charlton College of Business
UMASS Dartmouth
Dartmouth MA

Architect

Charles Rose Architects
Somerville MA

Project Profile

Whitney Veigas had less than three months to design, fabricate, and install a program of interior and exterior signs for a new faculty office building for the Charlton College of Business at UMASS Dartmouth. This dramatic building incorporated lead coated copper panels and an abundance of glass on the facade. Full height frosted glass partitions indoors gave a light, airy feeling to the corridors.

Our Solution

Long, slender name plaques made use of the wide glass walls. The metallic grey background color reflected the color of the slate floors. The owner's requirements for changes in faculty listings on individual office signs and building directories was met with changeable insert plaques. Laser printed paper inserts are easily produced by the college's staff.
